⚠️ ComfyUI module error — will fallback to Pollinations

I'm your autonomous creative production assistant. I can:

- 📄 Generate a full screenplay from your story idea
- ✅ Validate a script you've already written

Both paths produce:

→ scene_manifest.json · character_db.json · image_assets/

Please select a mode below to begin:

✅ Validate Script

⚙️ Settings updated! Restarting pipeline will use new models.

✅ Generate Mode selected.

What's your story idea? (e.g. *A detective thriller set in 1940s Cairo*)

I want you to tell me a children style story about two little boys
Hussain and Ahmad who get lost in the woods and by a
miracle find each other. the story revolves around their
friendship surrounded by the uncertainty of survival.

⚠️ Validation Issues Found (6 issue(s)):

- Scene headings must start with INT. or EXT.
- Character cue labels must be ALL-CAPS before dialogue
- Action descriptions are missing in some scenes
- Dialogue structure is incorrect in some scenes
- Continuity issues: unnamed characters in scene 1
- Continuity issues: orphaned scene 5
